SUMMARY

Computer Engineering undergraduate (CGPA 8.48/10) and Software Engineer Intern with hands-on experience building full-stack web applications and backend services using Java, Spring Boot, Node.js, React.js, and MongoDB. Two-time Smart India Hackathon participant, currently deepening skills in Machine Learning. Looking for software engineering opportunities where I can ship reliable features and keep growing quickly.

EDUCATION

Don Bosco Institute of Technology, Mumbai 2024 – Present
B.E. in Computer Engineering | CGPA: 8.48/10 *Mumbai, India*

Royal Junior College, Mumbai 2022 – 2024
Higher Secondary Certificate (Class XII) | 77.17% *Mumbai, India*

Omkar International School, Mumbai 2021 – 2022
Secondary School Certificate (Class X) | 93.66% *Mumbai, India*

EXPERIENCE

Sapphire Infocom Pvt Ltd Aug 2026 – Present
Software Engineer Intern *Mumbai, India*

- Develop backend logic that powers website functionality, including data retrieval for dashboard views.
- Built a CSV export feature that lets users download dashboard data for offline analysis and reporting.
- Collaborate with the engineering team using Git and GitHub in an active software development workflow.

PROJECTS

Agrove Farm – Digital Farm Management Portal *MongoDB, Express.js, React.js, Node.js*

- Implemented dashboard data retrieval and display, turning stored farm data into a usable interface for end users.
- Added CSV export functionality for dashboard data, enabling easy sharing and further analysis.

Virtual Banking System (VBS) *Java, Spring Boot, MySQL, WebSockets*

- Built a banking application with account management, deposits, withdrawals, fund transfers, and transaction history.
- Integrated real-time chat using WebSockets for instant two-way communication within the application.

Smart Attendance Tracker *JavaScript, HTML5, CSS3*

- Developed the complete frontend of a student attendance tracking web application.
- Implemented JavaScript-driven interactions to make attendance workflows quick and intuitive.

TECHNICAL SKILLS

Languages: C, Java, Python, JavaScript
Backend & Frameworks: Spring Boot, Node.js, Express.js, REST APIs, WebSockets
Frontend: React.js, HTML5, CSS3
Databases & Services: MySQL, MongoDB, Firebase
Tools & Platforms: Git, GitHub, Docker, Postman, VS Code, Vercel

ACHIEVEMENTS & CERTIFICATIONS

- Participated twice in Smart India Hackathon (SIH), a national-level innovation hackathon.
- Cyber Security Analyst Job Simulation – Tata Consultancy Services, via Forage.
